279 posts, 61 accounts. What to copy, and what we do not know.

Counters captured 20–22 October 2026. Descriptive medians.

FORMATS

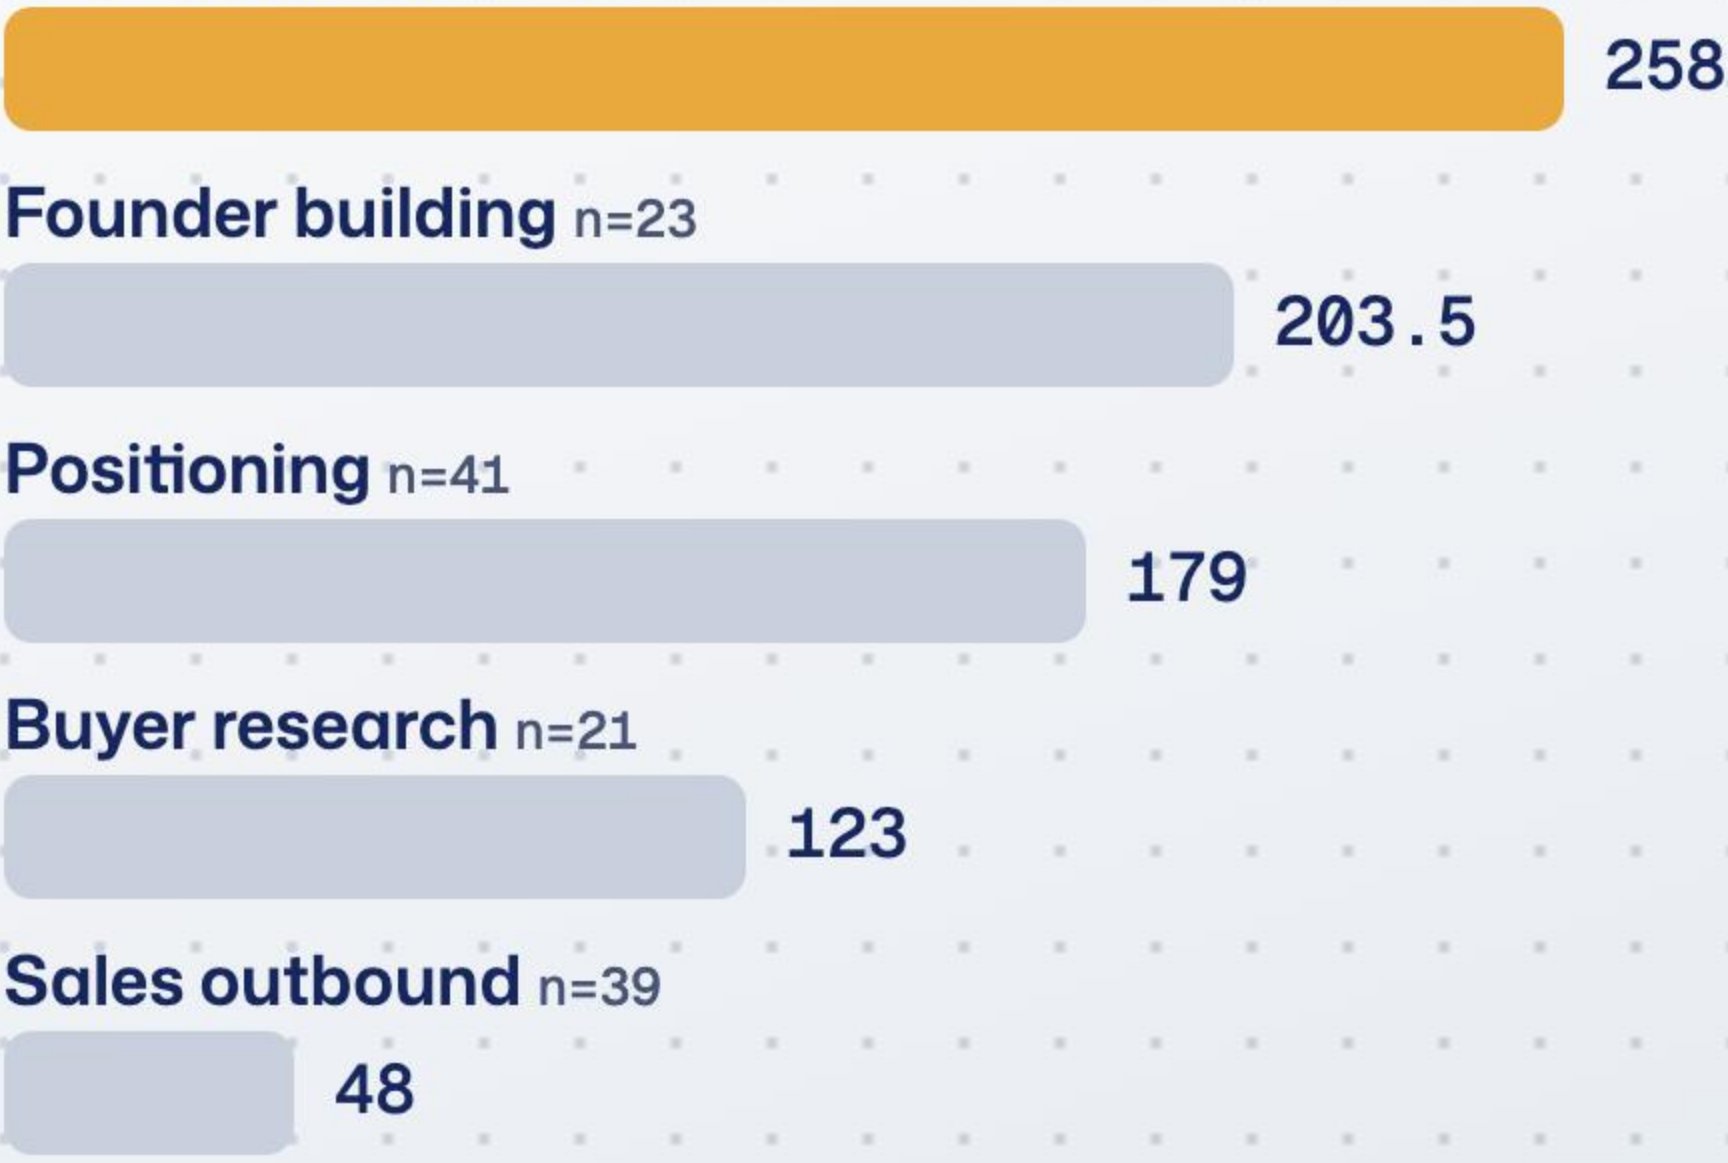

Images and documents led; video trailed.

Median observed reactions. Author, age and topic differ; this is not a causal effect.

TOPICS

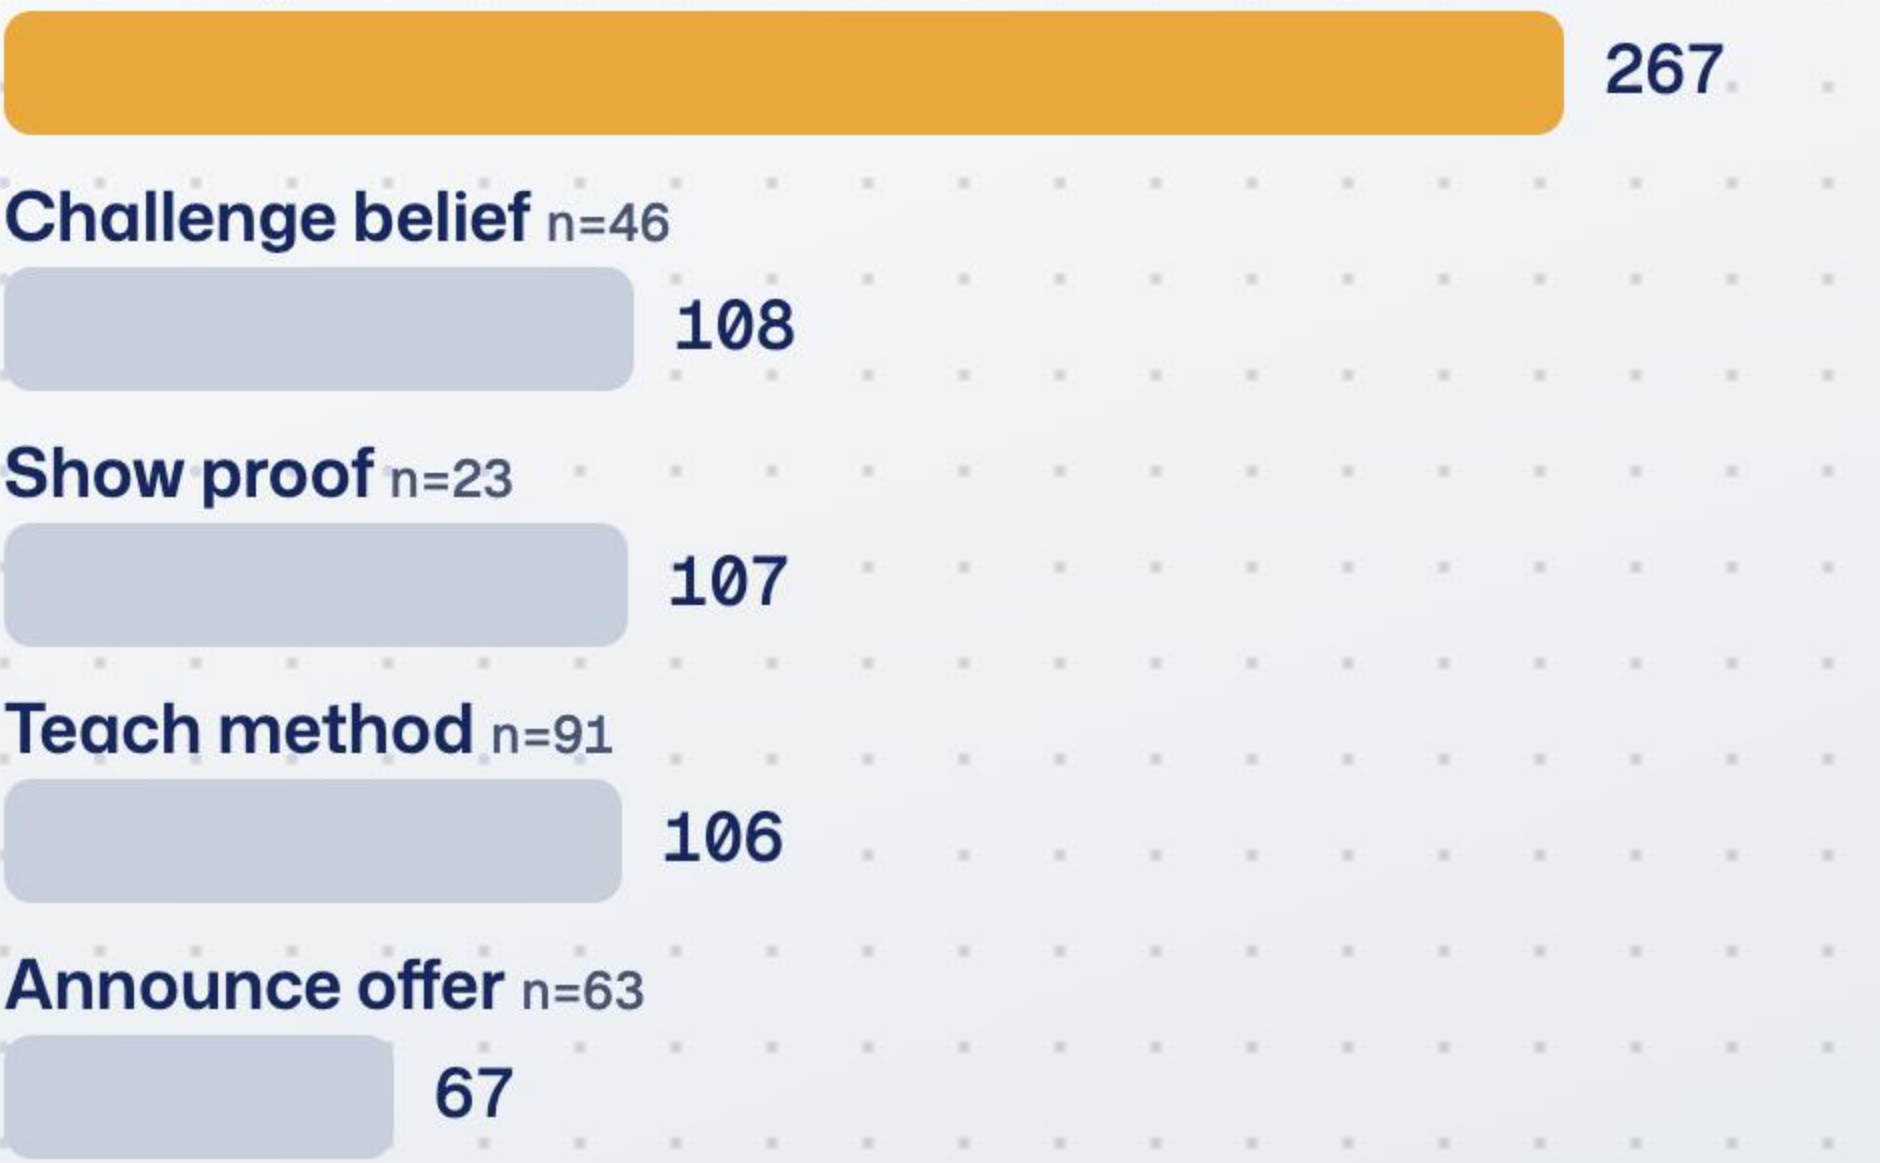

Personal brand and founder building led.

Median observed reactions, topics with at least 20 posts, top 5 shown plus sales outbound.

JOBS OF A POST

Stories beat offers.

Median observed reactions by editorial purpose.

WHAT WE DO NOT KNOW

No reach, no clicks, no conversions.

No impressions or video views were observed. Ten posts hold 33% of observed reactions. Author size matters. A strong post here is a strong reference, not a live trend winner.
