OUTSPOKEN

PROOF AND TRUST

An AI claim needs a boundary.

A PRACTICAL OUTSPOKEN CAROUSEL

START WITH THE TASK

Show the actual workflow.

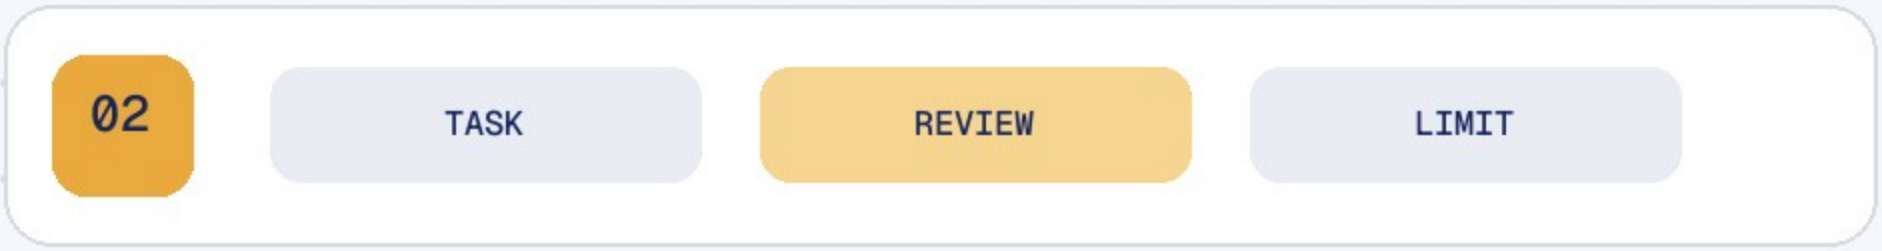

Describe the input, the action and the output a user will see.

EXPLAIN THE CHECK

Say who verifies the result.

Show the review step, escalation path or human decision where relevant.

SET THE BOUNDARY

Name the limitation.

Be specific about conditions, exclusions and uncertainty.

OUTSPOKEN

SUPPORT THE CLAIM

Show evidence in context.

Use a real example or measured result with its source, period and denominator.

Book an intro call
